Subject: CSR in Action 2011

Dear Mr Wallace,

We would like to thank The Whole Thing for your effort and commitment towards making CSR in Action 2011 a success. Due to your contribution as a mentor, the young Emirati team of the social enterprise Green Hands has developed one of the most exciting outcomes of the initiative.

The mentorship sessions delivered a clear framework for strategically planning; the team left with specific, actionable tasks to achieve their vision, with every member left accountable for fulfilling their part of the strategy.

This facilitation harnessed the potential of the group's collective thinking; it was evident every team member was engaged and thinking laterally with respect to developing a unified strategy.

Most significantly, these engaging sessions brought energy to the task and fostered the development of the team's spirit. This approach yielded a lasting effect, demonstrated by the impressive execution of the strategy created.

Overall The Whole Thing delivered professional mentorship of great value.

We thank you once more for your time, effort and personable company and look forward to working with you in the near future.

Sincerely,

Lina Hourani
CSR Division Director
Al Ahli Holding Group
